## I. ARTIST BIOGRAPHY & CURATORIAL PROFILE

Ming Ye is an Amsterdam-based visual artist dedicated to large-format view camera photography (8x10 and 4x5 inches). Operating entirely through analog processes, Ming Ye crafts silver gelatin darkroom prints that capture the timeless architectural geometry, water reflections, and contemplative quiet of Amsterdam and European cultural landmarks.

His work reflects an intimate dialogue between traditional Chinese aesthetic philosophy of space (Kong / Void) and European architectural heritage. Each archival print is handcrafted on fiber-base silver gelatin paper and selenium-toned for multi-century archival permanence.
